Summer 2011	Student was in the Baylor Science Building without authorization after the building had closed to students and obtained information	Honor Council	Immediate expulsion. Notation required on transcript.

INVADING SECURITY
Honor Code Definitions II. C. (5)

Invading or attempting to invade the administrative security maintained for the preparation and storage of examinations.

	<p>from a test and an answer key to the test that was in a faculty member's office. Student used the unauthorized information gained to take an exam in Chemistry the next morning.</p> <p>Student was again found in the Baylor Science Building after the building had closed to students, and was in possession of a tool student had designed to allow unauthorized access into locked rooms in the building. Student used this tool to access a faculty member's office and had planned to use it again to again gain access to test information.</p> <p>On an exam in Chemistry student obtained answers from a student seated next to him/her, and after the exam Scantron was returned, manipulated the answers on the Scantron to obtain a higher grade.</p>
